**TITLE 8 SOCIAL SERVICES
CHAPTER 50 CHILD SUPPORT ENFORCEMENT PROGRAM
PART 108 ESTABLISHMENT AND MODIFICATION OF SUPPORT ORDER**

8.50.108.1 ISSUING AGENCY: New Mexico Human Services Department - Child Support Enforcement Division.

[8.50.108.1 NMAC - Rp, 8.50.108.1 NMAC, 1/1/2024]

8.50.108.2 SCOPE: To the general public. For use by the Title IV-D agency and recipients of IV-D services.

[8.50.108.2 NMAC - Rp, 8.50.108.2 NMAC, 1/1/2024]

8.50.108.3 STATUTORY AUTHORITY: Public Assistance Act, Section 27-2-27 et seq., NMSA 1978. The human services department is designated as the single state agency for the enforcement of child and spousal support obligations pursuant to Title IV-D of the Social Security Act (42 USC 651 et. seq.).

[8.50.108.3 NMAC - Rp, 8.50.108.3 NMAC, 1/1/2024]

8.50.108.4 DURATION: Permanent.

[8.50.108.4 NMAC - Rp, 8.50.108.4 NMAC, 1/1/2024]

8.50.108.5 EFFECTIVE DATE: January 1, 2024 unless a later date is cited at the end of a section.

[8.50.108.5 NMAC - Rp, 8.50.108.5 NMAC, 1/1/2024]

8.50.108.6 OBJECTIVE: To provide regulations in accordance with federal and state law and regulations.

[8.50.108.6 NMAC - Rp, 8.50.108.6 NMAC, 1/1/2024]

8.50.108.7 DEFINITIONS: The following definition applies to this part. "Self-support reserve" means the support calculation ensures the payer parent has sufficient income to maintain a minimum standard of living. The self-support reserve is \$1,200 per month for one person which is slightly higher than one hundred percent of the federal poverty guideline. Additional definitions may be found under the general provisions at 8.50.100.7 NMAC.

[8.50.108.7 NMAC - N, 1/1/2024]

8.50.108.8 ESTABLISHMENT OF SUPPORT ORDER: If parentage has been legally established, and there is no support order in existence, the IV-D agency will pursue the establishment of a support order, as appropriate, pursuant to the requirements under 45 CFR §303.4(b)(1-4). All support orders obtained by the IV-D agency shall include a provision requiring the parties to keep the IV-D agency informed of their current addresses and, if the party is a parent, to also provide the name and address of their current employer, whether the parent has access to medical insurance coverage at reasonable cost, including health care coverage through a public entity and, if so, the medical insurance policy information.

A. Immediate income withholding: The IV-D agency will request an income withholding provision in accordance with the Support Enforcement Act, Section 40-4A-1 et seq., NMSA 1978. The IV-D agency will not agree to an exception to wage withholding, but will honor any court or administrative order that waives or excepts wage withholding. All payments on Title IV-D cases, whether paid through income withholding, direct withdrawal, or direct payment by the non-custodial parent shall be paid through the IV-D agency. If the custodial party obtains an order in a IV-D case for direct payments to them, the IV-D agency will begin non-cooperation procedures in active IV-A cases and close cases with no public assistance history.

B. Persons and agencies the IV-D agency will assist to establish a support order:

- (1) parent;
- (2) legal guardian by court or administrative order;
- (3) legal custodian by court or administrative order;
- (4) IV-B or IV-E agency;
- (5) another IV-D agency, state, U.S. territory or country pursuant to the Uniform Interstate Family Support Act, Section 40-6A-101 et seq., NMSA 1978, or reciprocal international agreements.

C. Public assistance: If a dependent child receives public assistance, the IV-D agency will pursue a support order against the non-custodial parent, unless the IV-D agency determines that the case involves rape, incest, or it would not be in the best interest of the child(ren). If neither parent has custody of the child, the IV-D agency

will pursue a support order against both parents. If the custodian of the child(ren) receiving public assistance does not have legal standing to pursue support, the IV-D agency will seek to establish a support order solely in favor of the state as reimbursement for public assistance benefits expended on behalf of the child(ren) in accordance with the child support guidelines.

[8.50.108.8 NMAC - Rp, 8.50.108.8 NMAC, 1/1/2024]

8.50.108.9 CHILD SUPPORT AWARD GUIDELINES: The IV-D agency uses income information provided to the agency by the parties or other sources to apply the child support guidelines in Section 40-4-11.1., NMSA 1978 and the basic child support schedule now incorporated here as Appendix 1. If exact income information is unavailable, or if a party's earnings history is below minimum wage, the IV-D agency may seek to impute income to a party, provided that the amount of support is established based on consideration of the required factors under 45 CFR §302.56(a-c). Many low wage jobs offer less than 40 hours per week, so local labor market data shall be considered when imputing income. A request for retroactive support by the IV-D agency will only be for the minimal period in accordance with New Mexico law. The custodial party may seek a longer retroactive period in accordance with the law and is solely responsible for providing all documentation, presenting all evidence, and making all arguments at any hearing or during negotiations in support for the additional time period. The amount of retroactive support requested by the IV-D agency on behalf of the state or for a custodial party will be in accordance with the child support guidelines established pursuant to 45 CFR Section 302.56(f-h), or as otherwise stipulated to by the parties. Incarceration may not be treated as voluntary unemployment when a support order is being established, 45 CFR §302.56 (c)(3). Any deviations from the guidelines will contain a statement of the reason for deviation and shall be in accordance with Section 40-4-11.2 NMSA 1978.

[8.50.108.9 NMAC - Rp, 8.50.108.9 NMAC, 1/1/2024]

8.50.108.10 BASIC CHILD SUPPORT SCHEDULE AND THE SELF-SUPPORT RESERVE:

A. In any action to establish or modify child support, the child support guidelines schedule as set forth in this section shall be applied to determine the child support due and shall be a rebuttable presumption for the amount of such child support. The basic child support schedule is reviewed quadrennially by the child support guideline commission pursuant to Section 40-4-11.3 NMSA.

B. Effective January 1, 2024, the basic child support schedule incorporates a self-support reserve (SSR). The SSR is demonstrated in the shaded area of the basic child support schedule and provides that if the payer parent's income and number of children fall into the shaded area, only the payer-parent's income is considered in the child support calculation. As a result, the payer-parent is one hundred percent responsible for SSR adjusted child support obligation from the schedule. This ensures that the SSR is effective at considering basic subsistence needs of the payer-parent who has a limited ability to pay, even if the other parent has significantly more income and their combined income is above the SSR adjusted area of the schedule. Support calculation using the SSR method is reliant on using a worksheet A only and should not take into consideration childcare cost, medical expenses to include insurance premiums, and other appropriate expenses that are otherwise considered by the child support guidelines pursuant to Subparagraph (b) of Paragraph (2) of Subsection M of Section 40-4-11.1 NMSA, 1978.

C. For shared responsibility arrangements, the basic child support obligation shall be calculated using the basic child support schedule, worksheet B and instructions contained in Subsection M of Section 40-4-11 NMSA 1978. Support calculations using worksheet B are not subject to the SSR method.

[8.50.108.10 NMAC - N, 1/1/2024]

8.50.108.11 DEFAULT JUDGMENT: The IV-D agency may seek entry of a default order by the court or administrative authority according to state law and rules of procedure regarding default orders.

[8.50.108.10 NMAC - Rp, 8.50.108.10 NMAC, 1/1/2024]

8.50.108.12 MODIFICATION OF CHILD SUPPORT ORDERS: Either party may request the IV-D agency to provide the service of seeking the modification of a support order. Applicable fees will be charged to the requesting party in compliance with 8.50.125.10 NMAC. The IV-D agency may seek a modification if the non-custodial parent will be incarcerated for more than 180 calendar days. The IV-D agency will not review a support order for modification without request by a party, unless the custodial party is currently receiving public assistance. In accordance with federal and state laws, a modification of a support order is retroactive only to the time period that a petition or motion was filed with a court and was pending a decision.

[8.50.108.12 NMAC - Rp, 8.50.108.12 NMAC, 1/1/2024]

8.50.108.13 REVIEW AND ADJUSTMENT OF SUPPORT ORDERS: The IV-D agency conducts a review for modification of support orders in the IV-D caseload three years from the effective date of the last support order. At the time of review, if the case is actively receiving public assistance, the IV-D agency must pursue a modification either upward or downward if its review indicates that there will be at least a twenty percent change from the current obligation of support. The review is conducted based on information provided by the parties and other sources that report income. Both parties are sent notice at the time of review to request current information from them regarding income, childcare costs, medical expenses to include insurance premiums, and any other appropriate expenses that are considered by the child support guidelines. Both parties are notified of the result of the review conducted by the IV-D agency. If the IV-D agency chooses not to pursue a modification, any party may independently pursue their own request for a modification of a support order. The state may initiate a review of an order, without a specific request for review, if information is received by the IV-D agency that the non-custodial parent will be incarcerated for more than 180 calendar days, pursuant to the conditions specified in 45 CFR §303.8(b)(2), (7), and (c). Under 45 CFR §302.56 (c)(3), incarceration may not be treated as voluntary unemployment when a support order is being modified.

[8.50.108.13 NMAC - Rp, 8.50.108.13 NMAC, 1/1/2024]

8.50.108.14 PROVISION OF SERVICES TO IV-B AND IV-E PROGRAMS: Upon request for services from the state IV-B or IV-E program, the IV-D agency will review its caseload to determine if there is an active IV-D case. The IV-D agency will send a letter to both the custodial party and non-custodial parent(s) notifying them that the IV-B or IV-E agency has requested services due to the minor child(ren) being in state custody. If there is a current order of support in place, the IV-D agency will review the case for appropriate legal action. If there is not a current support order in place, the IV-D agency will work with the IV-B or IV-E agency to obtain a mutually agreed upon support order between the IV-B or IV-E agency and the IV-D agency.

[8.50.108.14 NMAC - Rp, 8.50.108.14 NMAC 1/1/2024]

8.50.108.15 FURNISHING CONSUMER REPORTS FOR CERTAIN PURPOSES RELATING TO CHILD SUPPORT: Section 604 of the Fair Credit Reporting Act (15 U.S.C. 1681b) authorizes the release of information contained in a non-custodial parent's credit report to the New Mexico IV-D agency. The information obtained from the consumer reporting agency is to be used solely for the purpose of establishing or modifying an order of support.

[8.50.108.11 NMAC - Rp, 8.50.108.11 NMAC, 1/1/2024]

History of 8.50.108 NMAC:

Pre-NMAC History: The material in this part was derived from that previously filed with the State Records Center and Archives:

ISD CSEB 501.1100, State and Local Requirements, filed 6/23/1980.

NMAC History:

8 NMAC 5.CSE.000 through 8 NMAC 5.CSE.970, filed 12/30/1994.

History of Repealed Material:

8 NMAC 5.CSE, Child Support Enforcement, filed 12/30/94 - Repealed effective 5/31/2001.

8.50.108 NMAC, Establishment of Support Order, filed 5/14/2001 - Repealed effective 1/1/2010.

8.50.108 NMAC, Establishment of Support Order, filed 12/30/2009 - Repealed effective 1/1/2024.

Other History:

8.50.108 NMAC, Establishment of Support Order, filed 12/30/2009 - Replaced by 8.50.108 NMAC, Establishment of Support Order, effective 1/1/2024.

APPENDIX 1
Basic Child Support Schedule

Both Parents' Combined
Adjusted Gross Income (or,
the parent payer's income
only, if income and number
of children fall within the
shaded area).

Administration and Technical Assistance

Administration and technical assistance were provided through staff and administrators with the New Mexico Human Services Department (HSD), particularly within the Child Support Enforcement Division (CSED). This included Kari Armijo (HSD Deputy Secretary,); Betina Gonzales McCracken (CSED Acting Director); Jill Goodmacher (CSED Policy Manager); Carlos Moya (CSED Performance Manager); Wanda Martinez Esq.(Deputy General Counsel of CSED Legal Services); and Melanie Vigil (CSED Deputy Director of Central Operation). Economic analysis and technical assistance were provided to the Commission by Dr. Jane Venohr, an economist and research associate with Center for Policy Research ("CPR").

PURPOSE AND BACKGROUND

New Mexico child support guidelines are set in State Statute (NMSA §40-4-11.1). Federal regulation and State law require that the appropriateness of the guidelines be reviewed at least once every four years.¹ The federal requirements for state guidelines and each state's periodic review of its guidelines are conditions for approval of the state plan for child support (42 U.S. Code §667). New Mexico has consistently met the guidelines review requirements. New Mexico's last review was conducted in 2018. It resulted in legislative changes to the guidelines that became effective July 1, 2021.

Federal Requirements of State Child Support Guidelines

As part of the federal regulation governing state child support programs that are provided through Title IV-D of the Social Security Act, each state is to establish one set of child support guidelines to be used by all judges and decision makers with authority to set or modify child support guidelines within a state. The guidelines must be applied presumptively but states are to provide criteria for rebutting the guidelines when the application of the state's guidelines would be inappropriate or unjust. A state's guidelines must:

- Consider all income of the payer-parent² (and at the state's discretion, the income of the parent receiving child support);
- Consider the basic subsistence needs of the payer-parent (and, at the state's discretion, the basic subsistence needs of the receiving parent and the children);
- Provide for the consideration of the specific circumstances of the parent, to the extent known, when income imputation is authorized;
- Address how the parents will provide for the child's healthcare needs through private or public healthcare coverage or another means;
- Provide that incarceration of a parent that exceeds 180 days in duration may not be treated as voluntary unemployment in establishing or modifying order; and
- Be based on specific descriptive and numeric criteria (i.e., produce a sum-certain amount).³

¹45 CFR 302.56(e) and NMSA §40-4-11.3.

² The federal regulation uses the term "noncustodial parent" rather than payer-parent to address the parent required to pay support. Several states are abandoning terms that refer to the custody of the parent because custody does not always clearly relate to which parent is required to pay child support. For example, in equal physical custody cases, the higher-income parent would owe support even though that parent is not a "noncustodial parent."

³45 CFR §302.56(c).

The current New Mexico guidelines meets each of these federal requirements. The requirements concerning income imputation and incarceration were adopted as part of the latest guidelines change in 2021.

Review Requirements

The federal requirement for states to periodically review their guidelines has been in place since 1989. As part of that original requirement, states were required to consider economic data on the cost of raising children and case file data to analyze the application of and deviation from the guidelines. The data analysis requirement aimed to arm states with information that could be used to keep deviations at a minimum, which is a federally-stated objective.

These requirements were expanded in 2016 to consider additional data as part of a state's guidelines review. The intent of the expanded data encouraged states to make data-informed changes to improve the appropriateness of the guidelines. Currently, federal regulation now requires states to:

- Review economic data on the cost of raising children;
- Analyze case files on the application of and deviation from the child support guidelines;
- Analyze case data on the rates of default and imputed income and orders using the low-income adjustment;
- Analyze payment data;
- Consider state and local labor market data; and
- Consider the impact of guidelines policies and amounts on families and payer-parents with incomes below 200 percent of poverty.⁴

In addition, states are required to provide meaningful opportunity for public input, including input from low-income parents and the state child support agency.

The timeline for fulfilling the additional requirements varies with a state's guidelines review cycle and can span till 2025 for some states that received a waiver to extend their deadline due to the Covid-19 pandemic. New Mexico was one of the first states to meet the expanded federal review requirements. New Mexico fulfilled the federal review requirements as part of its 2018 review.

⁴ 45 CFR §302.56(h).

FORMATION OF COMMISSION, PUBLIC INPUT, AND PUBLICATION OF REPORTS AND DATES

The Child Support Review Commission was formed in July 2022 by the New Mexico Child Support Enforcement Division (CSED) as provided in NMSA §40-4-11.3 (1978). The composition of the Commission reflects a wide range of stakeholders including many with a focus on low-income parents. Commission members are listed after the title page of this report.

Public Input

The Child Support Review Commission held two public meetings where public comment was also solicited. The meetings were held virtually, which is the standard meeting platform due to the Covid-19 pandemic. The first meeting was held on August 16, 2022, and the second meeting was held September 13, 2022. Public announcement about each meeting and links to the web-conference were released in advance, as well a solicitation for written comments. Meetings notices were announced in the Albuquerque Sunday Journal on July 17, 2022, and August 21, 2022, as well as on the HSD/CSED website and in all CSED field offices.

The Commission members in attendance of the August meeting were: Kari Armijo, Judge Shannon Bulman, Teague González, Betina Gonzales McCracken, Hearing Officer Stephen Klump, Judge Jared Kallunki, Wanda Martinez, Judge James Martin, Senator Antionette Sedillo Lopez, and Johnny Wilson. Dr. Jane Venohr, an economist with Center for Policy Research (CPR) who has national expertise in child support guidelines, presented to the Commission. Dr. Venohr was retained by CSED to provide information on the cost of child rearing. The CPR report is provided in the Appendix.

The Commission members in attendance of the September meeting were: Kari Armijo, Judge Shannon Bulman, Gina DeBlassie, Teague González, Betina Gonzales McCracken, Hearing Officer Stephen Klump, Wanda Martinez, Judge James Martin, Senator Antionette Sedillo Lopez, and Johnny Wilson. Dr. Jane Venohr was also present. Public attendance, of the meeting had no comments. CSED received one written comment. It was read to the Commission.

Publication of Reports and Dates

Written information considered by the Commission was made available to the public on the HSD/CSED website. This included the preliminary findings of the appended CPR report. CPR's analyses meet the federal data analysis requirements described earlier to consider economic data on the cost of raising children and to analyze case file data on guidelines deviations and other issues. In addition, the entire meeting transcripts were also made available on the HSD/CSED website.

The effective date of the recommendations is contingent on the New Mexico legislature adopting changes. The next guidelines review will be conducted in 2026.

FULFILLMENT OF FEDERAL REQUIREMENTS TO ANALYZE DATA

Economic Data on the Cost of Raising Children

Most states, including New Mexico, base their child support schedule on economic data showing how much money families actually spend on their children. Since the existing New Mexico schedule was developed, only two new studies of child-rearing expenditures have been conducted. Both rely on the same expenditures data. One of the studies was conducted by the same economist using the same economic methodology that forms the basis of the current New Mexico schedule. The only difference is the expenditures data comes from more recently surveyed families. This study was released in 2021 and forms the economic basis of several state guidelines. The other study was conducted by Florida State University, uses slightly different assumptions, and is not in use by any state. The new study by the same economist who conducted the study underlying the current New Mexico child support schedule generally indicates cost increases for two and more children, particularly at higher incomes. There was no increase in the one-child amounts at low and middle incomes.

Other Economic Factors Considered in the Schedule

Besides the economic study of child-rearing expenditures, many other factors are considered when converting the study results to a child support schedule. Dr. Venohr listed the other factors at the August Commission meeting, identified the data source underlying the current New Mexico schedule, and which factors could be updated for more current data or information. They included adjustments for current prices; New Mexico's incomes/prices being below the national average; federal and state income tax rates and FICA; subtracting out childcare expenses and the child's healthcare expenses; and the incorporation of a low-income adjustment that meets the federal requirement to consider the basic subsistence needs of a payer-parent who has limited ability to pay.

The federal poverty guidelines (FPG) for one person are often used as a proxy of a parent's basic subsistence needs. The 2022 FPG for one person is \$1,133 per month. Some states use more or less for a variety of reasons that range from the state having income below the national average to relating to income thresholds for various public assistance programs (e.g., the income eligibility threshold for the Supplemental Nutrition Assistance Program—SNAP—is 130% of the FPG.) The FPG is updated annually. Dr. Venohr also compared New Mexico's low-income adjustment to those of other states (see appended CPR report). The comparisons demonstrated that the existing New Mexico low-income adjustment was not as effective as the

provisions of other states in maintaining the consideration of the basic subsistence needs of a parent with limited ability to pay in the child support calculation.

Schedules are updated to current price levels because of the time lags between collection of expenditures data and when a study is published. Price levels had risen 17.6 percent between when the existing schedule was developed in 2018 and when the Commission met in August 2022. Dr. Venohr explained that this does not result in a 17.6 percent increase in schedule amounts because incomes have also increased. Federal and State of New Mexico income tax rates and FICA are considered because expenditures decisions are made based on after-tax income rather than gross income. Childcare expenses and all but a nominal amount of the children's healthcare expenses are excluded from the child support schedule because the actual amount expended for work-related childcare expenses, the children's health insurance premium, and the children's extraordinary, unreimbursed medical expenses (e.g., the recurring unreimbursed medical expense of asthma medicine) are considered on a case-by-case basis in the calculation of support. The nominal amount of healthcare expenses remaining in the schedule is to cover ordinary healthcare expenses needed for most children (e.g., band-aids and over-the-counter cough medicine).

Impact of Economic Changes

The economic study, inflation, and the increase in the FPG were the three major changes affecting the schedule since it was last updated. Changes in the other factors have less of an impact. The new economic study and inflation generally suggest schedule increases are warranted at middle and high incomes. Changes in the FPG suggest reducing the amounts at low incomes. More detail about the economic studies on the cost of raising children and other factors considered in the conversion of the economic study to a child support schedule can be found in CPR's attached report.

Examination of Case File Data

CSED provided case file data to CPR to fulfill the federal requirements to analyze case file data on the application and deviations from the guidelines, as well as rates of default and imputed child support orders, use of the low-income adjustment, and payment data. CSED extracted the case file data from its automated system. The sample selection criteria consisted of all intrastate orders that were newly established or modified within two time periods: calendar year (CY) 2020; and July through December 2021. Two different time periods were considered for several reasons: to ensure an adequate sample size; to consider changes over time that may vary due to the Covid-19 pandemic that began Spring 2020; and because the most recent guidelines changes became effective July 1, 2021. Payment data was collected for the CY2020 sample from the following year: CY2021. This allowed for a year's worth of payment data to be

analyzed. For the second sample (July – December 2021), only the first three months of payment data from 2022 could be analyzed because of the timing of the data pull.

The two time periods were analyzed separately and contrasted to the findings from case file data analyzed for the last review, which was intrastate orders that were newly established or modified in state fiscal year 2016-2017. For that sample, payment data were collected from the following year: state fiscal year 2017-2018. The SFY 2016-2017 sample consisted of 5,390 orders, the CY2020 sample consisted of 3,947 orders, and the July. – December. 2021 sample consisted of 1,318 orders.

There are some limitations to the data. These limitations include: the data only considers CSED cases; and, there is an unknown number of non-CSED (private) child support cases within the state. The major purpose of any state automated child support system is to track child support actions and payments; hence, most state child support systems generally do not have data fields noting income imputation, default, or application of the low-income adjustment. Instead, proxies are developed and used for the analysis. Although the current guidelines became effective on July 1, 2021, not all orders established or modified on July 1, 2021 or after may have been set using the new guidelines. The petitions were likely to be filed before July and reflect the previous child support guidelines in effect when the petitions were filed. Further, not all parties may have known to apply the new guidelines. There also was not sufficient time between when the 2022 payments were due and extracted for ledgers to balance; hence, the analysis of any payment data from the Jul. – Dec. 2021 sample should be viewed as preliminary.

General Characteristics of the Orders and the Parents

Just over half of orders in the two recent samples were for one child, about another 30% for two children, exactly 10% were for three children, and the remaining 4% were for four or more children. The father was the parent obligated to pay support in most orders. The percentage of children enrolled in Medicaid in the two recent samples was considerably more than the sample drawn for the last review. As clarified by HSD Deputy Secretary Kari Armijo, this may have resulted in changes in Medicaid enrollment rules to accommodate administering the program in the early days of the pandemic.

The average order amount increased from the previous sample to the recent samples. It increased from \$356 per month (earliest sample) to \$404 per month (CY2020 sample) to \$438 per month (Jul. – Dec. 2021 sample). The increase may reflect increases to the state minimum wage in the last few years. Minimum wage was \$7.50 per hour in the earliest sample (SFY 2018-2019), \$9.00 per hour during the CY2020 sample, and \$10.50 per hour during the Jul. – Dec. 2021 sample. The 2022 state minimum wage is \$11.50 per hour and will raise to \$12.00 per hour in 2023. Income is often imputed at minimum wage if a parent does not provide income

information to the court or CSED, CSED has limited information about the parent's income from its available automated sources, and the parent has limited or inconsistent earnings history and no evidence that the parent has the skills, educational attainment or qualifications to earn more than minimum wage. In addition, almost half of the current samples had cash medical support ordered. The amount was \$5 per month for most cases. Cash medical support is typically ordered when neither parent has access to private healthcare coverage that is reasonable in cost, or accessible to the children, or both. It is common for children to be eligible for Medicaid in these circumstances. In the previous sample, cash medical support was ordered in only 14% of orders. The \$5 cash medical support is typically distributed to the Medicaid agency to offset the cost of the child's health plan.

The median gross monthly income of the payer-parent used for the child support calculation was \$1,700 in the CY2020 sample and \$1,847 in the Jul. – Dec 2021 sample. The median gross monthly incomes of the receiving parent were \$1,560 per month in the CY2020 sample and \$1,820 per month in the Jul. – Dec. 2021 sample. These median incomes include imputed incomes. Income may be imputed to either or both parents. In contrast, full-earnings from the 2021 New Mexico minimum wage would be about \$1,820 per month.

Analyses of Federally Required Data Fields

Federal regulation requires an analysis of deviations from the child support guidelines with a goal of limiting future deviations. The child support guidelines were applied in 92% of the orders in both the CY 2020 sample and the Jul. – Dec. 2021 sample. In other words, this is a guidelines deviation rate of 8%. This is an increase from the previous review, which was 4%. Still, 8% is low compared to the deviation rate of other states. Most deviations (over 70% of the current samples) were downward. The three most common reasons among the recent samples were: agreement by the parties, judge's discretion, and substantial hardship.

The CSED automated system does not track income imputation and default orders directly, so proxies were used. Full-time, minimum wage earning is used as proxy for income imputation. This is a common amount for income imputation. This proxy will understate income imputation when income is imputed at another amount. It will overstate income imputation if the actual income is exactly 40 hours per week at the state minimum wage.

Income imputation rates are higher among payer-parents than receiving parents and higher in order establishment cases than order modification cases. The highest income imputation rate was 45%: it was among payer-parents with newly established orders in the Jul. – Dec. 2021 sample. In 2021, the pandemic and federal policies addressing the pandemic influenced the employment situation. Income imputation may have been appropriate for parents who lost their job or had reduced income early in the pandemic (2020) but then had more favorable

employment opportunities in the second year of the pandemic (2021) as employers began hiring again. Other data sources also find that 45% of orders with income imputed to the payer-parent are default orders.

The data also suggest that the rates of income imputation have decreased since the last review. This decrease may reflect increased awareness of the negative outcomes associated with income imputation, the federal sentiment and requirement to limit income imputation, increased use of income from alternative sources (e.g., income information provided to CSED), and New Mexico's adoption of the federally required provision to consider the individual circumstances of the parent when income imputation is authorized.

The CSED automated system does not track whether the low-income adjustment is applied. The minimum order amount is used as a proxy. This likely understates the actual percentage of orders in which the low-income adjustment was applied. The minimum order varies with the number of children. The minimum order (regardless of the number of children) decreased as of July 2021. For example, it decreased by \$100 to \$60 per month for one child. (The decreases for two and more children were not as large.) The minimum order was rarely applied in both the CY2022 and July. – December 2021 sample. The income at which the minimum order would apply is significantly less than earnings from full-time, minimum-wage employment. This may be another reason it is not applied frequently.

Analysis of payment data reveals that the percentage of orders with any payments increased from SFY 2017 to CY 2020, particularly for new orders (i.e., it increased from 67% of new orders in SFY 2017 to 77% of new orders in CY 2020). Further, among those cases with any payments, the percentage of current support paid on new orders has increased over time: from 62% compliance rate in SFY 2017 to 67% compliance rate in CY 2020 to 73% compliance rate in Jul. – Dec. 2021. Payment rates and the percentage paid were significantly less when the payer-parent's income was imputed to the equivalent full-time, minimum wage earnings.

Analysis of Labor Market Data

Federal regulation requires the analysis of labor market data. The intent is to gather information about the employability of low-skilled workers within a state to help inform income imputation provisions and the low-income adjustment. In most states, many parents with child support cases initiated by a state's child support agency have barriers to employment and earnings including limited job skills, low educational attainment, history of incarceration, and other barriers.

Although state data are not available, national data finds that 35% of parents not living with at least one of their children have incomes below 200% of poverty, almost half have a high school degree or less, and they are less likely to work full-time and year-round. Labor market data

reveals that many low-skilled and low-paying jobs do not offer a 40-hour workweek or an opportunity for paid work each week of the year. The average number of hours worked per week in New Mexico is 34.1 hours per week. Although state-specific data are not readily available, national data finds that the average varies by industry: the average hours worked is significantly less in the retail and leisure and hospitality industries, which have inordinate numbers of low-skilled, low-paying jobs. Exacerbating the issue is that employment opportunities in New Mexico are more limited than they are in the U.S. as a whole. This is evident by New Mexico's higher unemployment rate, which was 5.1% in May 2022, while it was 3.6% for the nation as a whole in May 2022.

Additional Information Provided by CSED

At the August Commission meeting, Commission members discussed the impact of the state's increased minimum wage on child support cases, particularly on order amounts when income was imputed; and, whether expanding the low-income adjustment to income levels near what could be earned from minimum wage would increase payments to families. The Commission requested more information from CSED on their policies and data relevant to low-income parents. The Commission also asked CSED to try to obtain data on the average number of hours worked in New Mexico by industry. As of the date of this report, CSED was unable to obtain data on the average number of hours worked by New Mexico industries.

CSED Acting Director, Betina McCracken, presented the information at the September meeting. In general, CSED is taking actions to modernize its program and be more responsive to the needs of its caseload. CSED's modernization efforts can be summarized as a three-prong approach: helping parents improve their employability; making it easier for parents to make payments and be more involved in the child support process; and implementing the July 1, 2021 guidelines changes that encourage the use of actual incomes, consideration of ability to pay, and reduced the look-back period to 3 years for the establishment of new child support obligations. In partnership with the New Mexico Department of Workforce Solutions, CSED piloted the Supporting, Training, And Employing Parents Up ("STEPUp!") to improve parent employability in 2019 and launched it statewide in 2020. CSED has made it easier for parents to pay by recently adding online and pay-by-phone payment options. Recent technological improvements such as e-filing with the courts and the updated child support portal make it easier for parents to be involved in the child support process. Several metrics indicate success from these modernization efforts. These metrics range from increases in payments to less court filings and enforcement actions. In other words, CSED's modernization approach consists more of working with parents to facilitate child support payments and reserving the use of more punitive enforcement actions for those cases where they will be most effective.

CSED recognizes that over 60% of child support collections come from wage withholding. A key strength of automatic wage withholding is it can provide a regular source of child support

payment if the employer does not terminate employment, the employer reports and withholds wages, and the parent does not stop working. Wage withholding does not work as well for parents with frequent employment changes and parents who cycle frequently between periods of employment and no employment.

CSED Acting Director McCracken also provided a history of the \$5 cash medical support. In the 2009 legislative session, New Mexico Senate Bill 57 amended the Mandatory Medical Support Act to allow for cash medical support when health insurance was not available. At that time, federal regulations required cash medical support to be ordered when private health insurance is not provided for minor children. In 2016, however, the Federal Office of Child Support Enforcement (“OCSE”) issued the Flexibility, Efficiency, and Modernization Rule⁵ that recognizes other forms of healthcare coverage besides private health insurance provide a child with adequate healthcare coverage. Namely, healthcare coverage from public sources such as Medicaid and CHIP can adequately provide for the child’s healthcare coverage. In turn, cash medical support need not be ordered when the child’s healthcare coverage is from a public source.

RECOMMENDATIONS

The Commission developed three recommendations.

1. Updated the Child Support Guidelines Schedule for More Current Economic Data on the Cost of Raising Children and Add a Self-Support Reserve.

The Commission recommends an updated child support schedule that considers more current economic data on the cost of raising children. (See the end of this report for a copy of the recommended schedule.) The schedule includes a self-support reserve (SSR) of \$1,200 per month; shading the area adjusted for the SSR; and providing that if the payer-parent’s income and number of children fall into the shaded area, only the payer-parent’s income be considered in the child support calculation— that is, the payer-parent is 100% responsible for the SSR- adjusted child support obligation from the schedule. This latter step ensures that the SSR is effective at considering the basic subsistence needs of the parent with limited ability to pay even if the other party has significantly more income and their combined income is above the SSR-adjusted area of the schedule.

⁵ U.S. Department of Health and Human Services (DHHS) Centers for Medicaid Services. (Dec. 2016). “Flexibility, Efficiency, and Modernization in Child Support Enforcement Programs.” Federal Register. Retrieved from <https://www.gpo.gov/fdsys/pkg/FR-2016-12-20/pdf/2016-29598.pdf>.

A SSR of \$1,200 per month is slightly more than the 2022 federal poverty guidelines for one person (\$1,133 per month), less than the income eligibility threshold for SNAP (130% of FPG), and aligns with New Mexico's current and future proposed minimum wage rates.

2. Provide Guidance to Courts When Imputing Minimum Wage to Impute at 35 per Hours per Week rather than 40 Hours per Week.

The recommendation is based on the consideration of labor market data. The Commission is concerned that not all courts may be aware that many low-wage jobs offer less than 40-hour work weeks. The Commission also recognizes the need for consistent practices across the State.

3. Amend the Mandatory Medical Support Act to Remove Cash Medical Support.

In light of the 2016 federal change recognizing public healthcare coverage (e.g., Medicaid) as healthcare coverage for the children, the Commission recommends amending the Mandatory Medical Support Act to remove cash medical support. The intended consequence of this recommendation is to discontinue the practice of ordering \$5 per month in cash medical support when the child's healthcare coverage is from a public source.

The Commission recognizes that the requirement for cash medical support is outside the child support guidelines.

ACKNOWLEDGMENTS

The Commission Chair gratefully acknowledges the assistance and expertise of each Commission member in their thoughtful contributions to the Commission's deliberations when making recommendations.

Betina Gonzales McCracken, Chair
